

Works notification

St Kilda Road southbound lane realignment Domain Precinct

Tuesday 11 October until Thursday 13 October 2022

Overnight road works will take place in October to realign St Kilda Road's southbound lane between Dorcas Street and Toorak Road. As these works require a temporary closure of the southbound lane on St Kilda Road, they will need to occur at night outside of peak traffic times.

During the overnight roadworks there will be a closure of the southbound lane of St Kilda Road between Dorcas Street and Toorak Road, with traffic detours in place between Dorcas Street and Kings Way.

This realignment of St Kilda Road's southbound lane will support major works in November and December to realign the tram lines on St Kilda Road and open the new Anzac Station tram stop.

Due to the ongoing construction and tram infrastructure work at the intersection of Park Street and St Kilda Road, the right turn from Park Street on to St Kilda Road southbound will close from Wednesday 12 October until mid-2023.

For more information on major works in November and December please read overleaf.

What we are doing

Concrete barrier installation

- To prepare for the lane realignment, traffic barriers will be installed within the site overnight from 6pm Tuesday 11 October to 7am Wednesday 12 October
- Barrier installation will involve the use of a semi trailer to deliver barriers, and a mobile crane to lift barriers in place
- These works are expected to generate low to medium noise and will not require a road closure.

Traffic setup

To enable the St Kilda Road realignment works, the following traffic impacts will be in place from 8pm Wednesday 12 October to Thursday 13 October:

- Closing the southbound lane on St Kilda Road between Dorcas Street and Toorak Road
- Closing the right-hand turn from Dorcas Street onto St Kilda Road
- Closing the signalised pedestrian crossing at Park Street on St Kilda Road
- Closing the eastbound lane on Park Street between Wells Street and St Kilda Road
- Setting up traffic control to assist with traffic flow on the corners of St Kilda Road and Dorcas Street, St Kilda Road and Toorak Road/ Kings Way, and St Kilda Road and Park Street
- The realignment of the southbound lane of St Kilda Road will require the right-hand turn from Park Street onto St Kilda Road to be closed from 8pm Wednesday 12 October until mid-2023.

Construction partner:

Construction activity

- Profiling the new southbound lane at the two tie-in points on St Kilda Road opposite Dorcas Street and opposite Bowen Crescent, with excavators in use
- Asphaltting with vibratory rollers in use at each of the tie-in points followed by line-marking
- Shifting existing concrete barriers to realign the southbound lane between Dorcas Street and Toorak Road.

What you should be aware of

- Asphaltting works will continue until 10pm on weeknights leading up to the tie-in works
- The pedestrian crossing into the Shrine Grounds at Park Street will be closed for periods of time during the day on the Monday 10 October and Tuesday 11 October (signage will be in place to advise of closures and detour)
- Overnight works will take place on Tuesday 11 October and Wednesday 12 October with medium levels of noise expected
- There will be no right turn from Dorcas Street onto St Kilda Road southbound during the lane closure and tie-in works
- There will be no right turn from Park Street onto St Kilda Road southbound from the beginning of the tie-in works until mid-2023
- A traffic detour will be in place via Dorcas Street and Kings Way
- The southbound bicycle lane on St Kilda Road will be closed between Dorcas Street and Bromby Street with a temporary detour through the Shrine of Remembrance and along the existing shared path on St Kilda Road
- Tram services will not be affected
- As the road realignment works require a closure of St Kilda Road, they need to occur outside of peak periods, between 8pm and 5am
- Cyclists will need to dismount while detouring through the Shrine of Remembrance grounds.

When

Barrier placement

From 6pm Tuesday 11 October until
7am Wednesday 12 October

Lane closure and tie-in works

From 8pm Wednesday 12 October until
5am Thursday 13 October

Contingency dates

In the event of wet weather or unexpected delays, contingency nights will be:

Thursday 13 October and

Friday 14 October, 2022

Further information on these works can be found at [metrotunnel.vic.gov.au](https://www.metrotunnel.vic.gov.au)

Major 24/7 works in November / December 2022

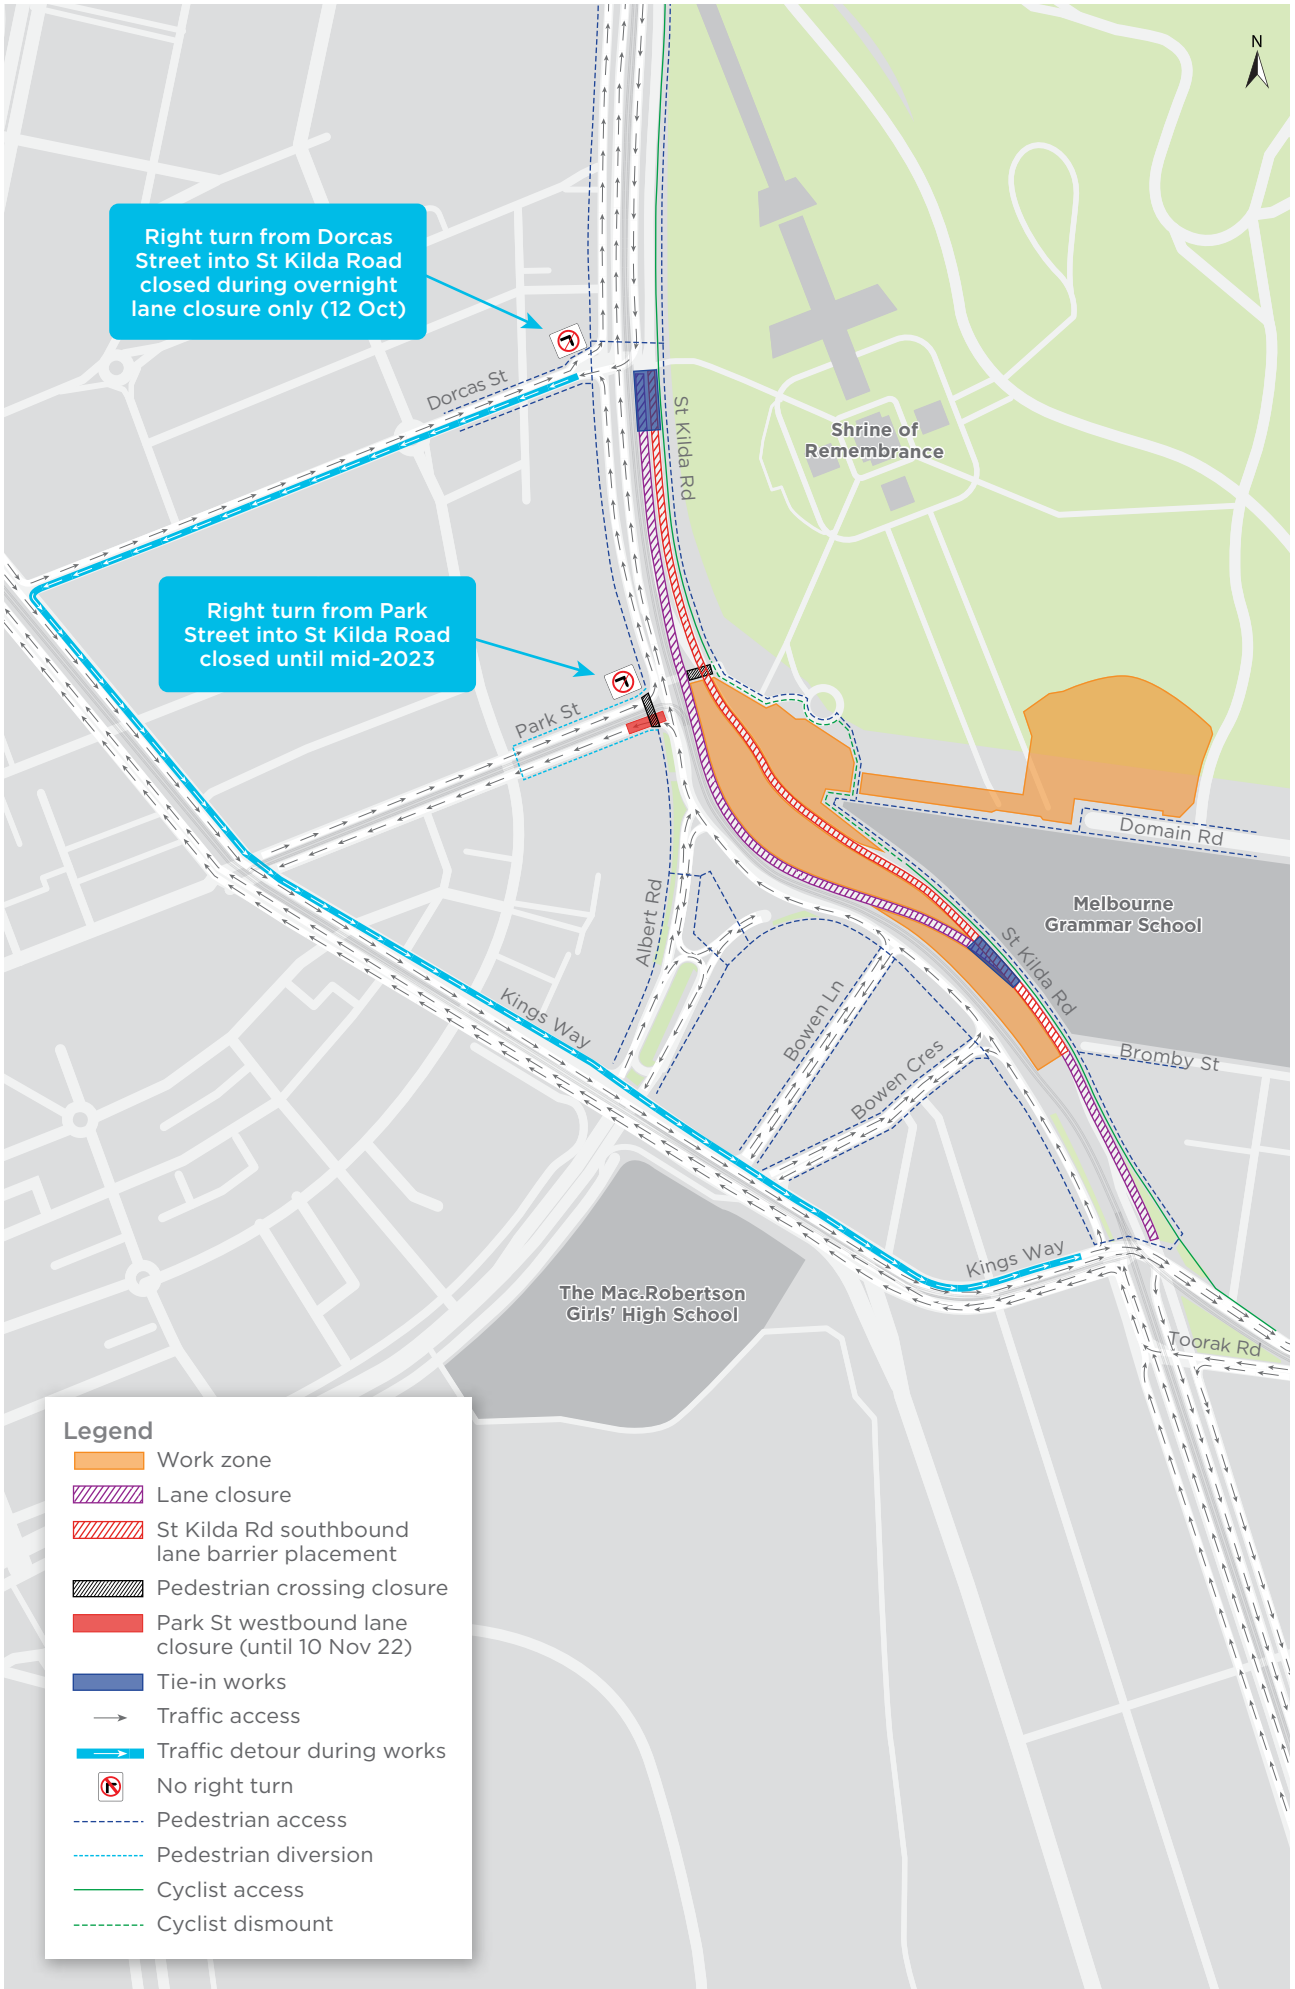

From 27 November until 16 December, 24/7 construction works will occur on St Kilda Road to realign tram tracks between Dorcas Street and Toorak Road, connecting the Anzac Station tram stop with the tram network.

During this time, buses will replace trams on St Kilda Road between the Arts Centre and Commercial Road.

Once complete, the new Anzac Station tram stop will be in operation.

More information on these works and associated changes to road and pedestrian connections in the precinct will be provided in October.
